

Testimonial

“My dog, Heidi, has to spend more time at home and with a new cat sibling. I brought this essence home just in time! It helped her with her depression and even helped her bond with her new kitty-brother. I recommend Bow Wow! Essence for any dog needing to feel more dog-like and happy!”

and Gemstone Infusions!

Bow Wow!™

A Balancing Essence For Dogs

The Science of Vibration...
The Art of Healing™

How does Bow Wow!™ Essence Work?

Flower Essences have been used since the 1930's to help restore balance to the body's energy field. Shanti Kai™ Essences are unique in that they contain carefully crafted blends of Hawaiian flowers and gemstones, drawing from an ingredient base of over 400 individual essences (also offered on our website). In Western Medicine, we attempt to heal at a symptomatic level or by eradicating disease through surgery or medications. Shanti Kai Essences are based on the "science of vibration" and seek to alter the subtle energy fields in the four bodies (physical, mental, emotional, and spiritual) so that they resonate according to their optimal health levels.

Our pets live in the environment we create for them, often experiencing the same stress that we do, and they can become energetically imbalanced the same way we do. Pet Essences offer a safe, gentle alternative for balancing stress. While you may see immediate benefits when using Shanti Kai™ Essences, it is important to remember that essences work best with consistent use over time.

About Bow Wow!™

Our proprietary Bow Wow!™ Canine Essence contains a carefully crafted blend of healing-focused gemstone and flower essences that are specially designed to be balancing for dogs. A few sample ingredients include:

Orange Garnet: Promotes happiness, may help energetically strengthen the mind. May help pets that show signs of nightmares during sleep. Could be beneficial for an animal that seems lethargic, low energy, or that is down or grieving.*

White Wild Ginger: Peaceful, calming, helps with releasing grief and purging of negative memories, which may be helpful for dogs that have been through trauma or experienced loss of partner/owner/ friend.

Yellow Chrysoberyl: Helps raise the vibrational level of the physical, emotional, and mental subtle bodies; may help encourage feelings of safety and confidence. May help animal release Energetic blockages that could one day manifest in the physical.

Peridot: Energizing and uplifting, helps activate the heart chakra, may help promote immune system. Helps cure all the miasms of the body.

Brown Tourmaline: Very grounding, balancing, and nurturing. Helps with clearing negative energy. Beneficial for lower chakras, feet and legs.

Papaya: Works on the sacral charka. Promotes happiness and emotional balance.

Why Use Bow Wow!™ ?

Essences are all about creating balance. When there is stress or trauma, illness or injury (including aging and stress accumulation), your pet's energy can become imbalanced, making it more difficult for him or her to recover and strengthen. Shanti Kai™ Hawaiian Flower and Gemstone Essences work on the subtle energy bodies of your pet and affect the physical body as a downstream event. Because our essences are vibrational, they do not pose the risk of allergy or overdose and are perfectly safe and easy to use.

Applying Bow Wow!™

4-6 sprays 2x/day or as needed or desired. Spray along spine and over kidneys, top of head and neck. Can also spray over areas of concern or around general aura of the dog. Works best when used consistently over time. May also use acutely at regular time intervals (every 15, 30, or 60 minutes) during times of stress.

NOTE: It is important to consider diet, exercise, water intake and other factors when using essences.
